**MINUTES OF THE 189TH ANNUAL GENERAL MEETING OF THE MELBOURNE CRICKET CLUB HELD IN THE MEMBERS' DINING ROOM, LEVEL 2, MCC MEMBERS' RESERVE, MCG & VIA ONLINE PLATFORM ON THURSDAY 11 JUNE 2026, AT 7:00PM AEST**

## 1. WELCOME

Mr Nick McCallum welcomed members to the 189th Annual General Meeting (AGM) of the Melbourne Cricket Club (MCC), and thanked attendees for joining both in person and online. He commenced the meeting by acknowledging the Traditional Custodians of the land where the meeting was being held, the Wurundjeri Woi-wurrung people of the Kulin Nation, and acknowledged the traditional custodians of where the members online were joining from. Mr McCallum extended a warm welcome and respect to all Aboriginal and Torres Strait Islander peoples who joined the meeting.

Mr McCallum noted that the meeting was being held both in person, in the Members' Dining Room, and online via the CorpVote platform. He informed the members that the meeting was a private meeting of the MCC for its Committee and members.

Mr McCallum advised that a new approach to question time was being trialled, in an effort to improve inclusivity, efficiency, and accountability. For the first time, members of all three membership categories were invited to submit questions in advance via an online portal. This provided an opportunity for more members to participate, not just those attending in person or online. It also allowed the committee and the executive to provide considered responses visible to all members ahead of the AGM. The questions and answers are available on the MCC website or in paper form for those attending in person. Members were encouraged to familiarise themselves with the responses. Questions will still be welcome during the meeting, but where a question has already been answered, the Club may refer members to the already published responses.

He informed attendees that if they needed assistance at any stage of the AGM, they could contact the Club on the phone or speak to a member of staff in the room. The contact details were shown on the screen.

Mr McCallum pointed out the two occasions where all members could ask questions, and these were at the conclusion of the Treasurer's Report and during the General Business section at the end of the meeting. He confirmed that the President will advise members when questions can be asked and requested members to only submit questions relating to the topic just presented, particularly after the Treasurer's Report where questions will only be taken on the financial statements of the Club and no other matters.

Mr McCallum gave instructions on how questions will be taken both by those in the room and those online. All questions not answered on the night will be answered offline in the coming days.

Mr McCallum moved to the formalities of the meeting and welcomed to the stage Melbourne Cricket Club President, Mr. Fred Oldfield, to chair the meeting.

The Chair thanked Mr McCallum, and all members joining both online and in person. He then noted that it was the 189th meeting of the Club in its rich and long history, and his fourth and final year as President. He added that it is a great honour and privilege to serve on the Committee as the Club means so much to him. He personally thanked members for their support, shared passion, and commitment to the Club.

The Chair referred members to the notice of the Annual General Meeting and outlined the agenda as follows-

- President, Fred Oldfield's Report
- CEO, Stuart Fox's Report
- Treasurer, Geoff Roberts' Report
- Elections of Office Bearers and Committee
- General Business

Introductions were then given for the Committee, with members asked to welcome Mr Adrian Anderson (Vice-President), Mr Christian Johnston (Vice-President), Mr Geoff Roberts (Treasurer), Ms Carolyn Bendall, Ms Annabel Brebner, Mr James Cain, Ms Paula Dwyer, Mr Tony Johnson, Ms Kalpana Ramani, and Mr James Sutherland.

Next, the Chair introduced the Club's leadership team, led by Mr Stuart Fox (CEO) and comprising of Mr Josh Eltringham (General Manager, Venue & Event Services), Ms Tanya Gallina (General Manager, Commercial Operations & Partnerships), Mr Mark Jones (General Manager, Finance & Business Performance), Mr Dean Matthews (General Manager, Club Services & Heritage), Ms Michelle Nolan (General Manager, People & Culture), Mr Rey Sumaru (General Manager, IT & Innovation) and Mr Peter Wearne (General Manager, Facilities).

He acknowledged KPMG as the Club's auditors and welcomed the Club's legal advisor Mr Grant Rowlands, representing Ashurst, along with the Club's in-house legal counsel Ms Kathryn Randle.

He then acknowledged Life Member, David Meiklejohn, former Office Bearers David Crow, and Stephen Spargo and former Committee members Clare Cannon and Jane Nathan. He advised that a number of apologies from members had been received and would be noted in the minutes of the meeting. He also welcomed club staff attending in a working capacity.

The Chair advised that the minutes of the 2025 AGM have been signed as a true and correct record and that most matters raised were either addressed in the meeting or followed up directly with members afterwards.

The Chair noted the atmosphere at the MCG over the recent weekend, with 77,000 people attending the Essendon vs Carlton match, and 88,000 people attending the Melbourne vs Collingwood match. Both matches paid tribute to the late Neale Daniher, with a wonderful sea of blue beanies around the ground. It was the 'G at its best and he acknowledged the staff team's efforts in facilitating the events.

## 2. PRESIDENT'S REPORT

The President commenced his report for the 2025/2026 year, which marks the end of the Club's 2021-2026 Strategic Plan and has been one of the most successful in the Club's history.

The President highlighted that the 2025 release of the MCG Social and Economic Value Study showed the MCG's contribution to the economic life of Victoria and the life of everyday Victorians. In 2024 the MCG contributed $721m to the Victorian economy, generated 7,700 full-time equivalent jobs, and drew over 620,000 interstate and international visitors to Victoria. This supports the MCC's business case for the redevelopment of the MCG and the Shane Warne stand.

The President highlighted significant events held in the last year including:

- Over 4.1 million people attended the MCG including 3 million for the AFL season, averaging 95,000 people per match across the AFL finals series.
- The Wallabies vs the British & Irish Lions Test match attracted a record-breaking crowd.
- The Australia-India T20 Cricket match was sold out and the first two days of the Ashes Boxing Day Test attracted record crowds.
- Two ACDC concerts which were also well attended.

The President commended the MCG Tours and Australian Sports Museum for attracting over 180,000 visitors during the year. The MCG tourism experiences received a gold medal at the Victorian Tourism Awards and a bronze medal in the 2025 Australia Major Tourist Attraction Category. The year included two of the most popular exhibits in recent history, the Centenary of ANZAC Day Football and 'Warne – Treasures of a Legend'.

The President advised that the Club continues to invest in and upgrade MCG facilities including:

- The transformation of the Tower 6 Bar into a restaurant (The Pavilion)
- Revamp of the Committee Room Restaurant
- Improvements to the Members Dining Room, including three new LED screens.

The President reported that the MCC website has been upgraded based on feedback from members and staff to create a cleaner design that is easier to navigate. The website won the Gold Medal for the Best Sport and Recreation Website at the 2026 Australian Web Awards. The Club will soon introduce a digital application form for people wishing to join the waiting list.

The President advised that the MCC continues to be focused on creating a sense of belonging and community adding new events to the annual calendar including The Drop-In Dinner, the Young Members Wellness Morning, and new Provisional Members Functions. Prestige events continue to sell out year after year, including the Members' Dinner, the Bradman Lunch, the Norm Smith Oration, and the Coodabeen Champions' Brownlow Night.

The President also noted overseas members' tours to the UK and Ireland, including visits to the Open Championship and the Lords Cricket Ground; Singapore and Japan for the Formula 1 Grand Prix; and a competitive visit by MCC Sporting Sections to the Western Province Cricket Club in South Africa.

The President noted the strategic objective of fostering a love of sport and extending the Club's impact beyond the 'G, through its 14 sporting sections. He highlighted the achievement of Women's First 11 Cricket Team, which became the first MCC women's team to claim both the T20 and One-day premierships in the same season.

The President reported that the MCC Foundation has continued its partnerships with the Bachar Houli Foundation, the Melbourne Indigenous Transition School, the Sports Excellence Scholarship Fund, and the Western Bulldogs Team Up program. The partnership with Cricket Australia now delivers the National Indigenous Cricket Championships, the MCG Training Camp, and the Victorian Girls Leadership Program. A new partnership has been formed with Proud to Play creating safe and inclusive environments for LGBTQIA+ Australians and a second Reconciliation Action Plan has been launched with a strong emphasis on practical action and accountability.

The President noted that the Club's special interest groups continue to grow, including the Long Room Food and Wine Society, the Young Members, the Military Veterans Group, the Bridge Club, the XXIX Club, and the Women of the MCC.

The President advised that the addition of membership photographs at Gate 2 turnstiles and improvements in child and seat ticketing have led to a significant decline in card and visitor ticket misuse. He reminded members that hosting a guest in the Reserve comes with the responsibility for making sure they adhere to the Club's behavioural standards.

In closing, the President thanked:

- His fellow Committee members for their talents and time committed to the Club as volunteers,
- The Victorian Government and the MCG Trust for their continued partnership,
- MCG Volunteers for the warmth and knowledge they share with visitors,

- MCC Members for their loyalty and passion, and
- The management team led by CEO, Stuart Fox.

The Chair then welcomed the CEO, Mr Stuart Fox to the podium.

## 3. CEO's REPORT

The CEO thanked the Chair and greeted members both in the room and online and began by showing a video containing highlights from the MCG/MCC over the past year.

The CEO advised that the 2021-2026 Strategic Plan has been completed with most of the initiatives in the plan being achieved. The 2026 – 2031 Strategic Plan has been developed by management, staff, and the committee in consultation with stakeholders over seven or eight months. It builds on the foundations of the previous plan maintaining several key aspects.

The CEO highlighted the MCC's two important roles, namely managing and serving a large membership-based association, and managing the MCG and Yarra Park. The new strategic plan has four pillars:

- World-class stadium and precinct
- Unforgettable Experiences
- Treasured Membership
- For the love of sport and our community.

The CEO advised that under the World-class stadium and precinct pillar, the second stage of planning work on the MCG Redevelopment has begun to determine designs and costs and develop a business case. The redevelopment will focus on the whole stadium, not just the Shane Warne Stand.

The CEO advised that key aspects of the redevelopment will include:

- refreshed external lighting,
- an upgrade to the Bullring Bar,
- an upgrade to Keepers (B1) Food Court, and
- a revision to the Yarra Park Master Plan

The CEO highlighted upcoming events under the pillar of Unforgettable Experiences:

- LA Rams v San Francisco 49ers – Friday September 11 – noting that over 15,000 MCC members purchased tickets.
- 150th Anniversary Test – Australia v England- March 11 – 15, 2027.
- 2028 ICC Men's T20 World Cup

The CEO advised that the Unforgettable Experiences pillar also includes a new Tourism Strategy, with new exhibitions being planned and a new Customer Service Program – Elevate being established to maintain and improve high customer satisfaction rates.

The CEO noted that Treasured Membership remains a strategic pillar focusing on ongoing improvements to member experiences on match day, Special Interest Groups, Member Functions, and Member Tours.

The CEO advised that For the love of sport and our community pillar helps to sustain the club's social license through Club Sport, Club Sport Tours, Community Partnerships, and special events.

In concluding, the CEO thanked the following people:

- The Committee for their passion and contributing their expertise and experience.
- The Management team for their talent and contribution to the Club and Ground.
- The dedicated 180 MCC employees who go above and beyond every day to make sure everyone has the best experience with the Club.

The CEO handed back to the Chair.

The Chair thanked the CEO for his Report and noted that the next item on the agenda was the Treasurer's Report. The Chair reminded members that at the end of the presentation, they could ask questions only in reference to the 2025/26 Financial Statements and provided instructions on how to do so.

The Chair then welcomed the Treasurer, Mr Geoff Roberts to the podium.

## 4. TREASURER'S REPORT

The Treasurer commenced his report noting that it had been an exciting year for the Club with more than 4.1 million people through the gates to see the full suite of 47 AFL games, 4 AFL finals, an Ashes Boxing Day Test, the British & Irish Lions Test Match, and two ACDC concerts.

The Treasurer noted that the financial performance of the Club had been very strong. Revenue increased by $23 million and expenses increased by $14 million, resulting in a profit $48 million compared to a profit last year of $39 million. The Club remains in a strong financial position with cash and investments at year end of $170 million after undertaking capital expenditure of $30 million.

The Treasurer showed on the screen more detail of key movements from 2025 to 2026, all rounded to the nearest million dollar for clarity of explanation.

The first chart, relating to revenue, displayed on the screen noted:

- Revenue increased by $23 million from $215 million to $238 million.
- Member and customer revenue increased by $10 million due to an additional 5000 members, more members paying their entrance fee up front and the CPI increase in subscriptions.

- Event income such as catering and gate share increased by $5 million, due to increased events and crowds.
- Commercial income increased by $2 million due to renewals of major commercial partnership agreements.
- Other revenue increased by $3 million due mainly to an increase in special events including 2 ACDC concerts and the British and Irish Lions event.

The second chart relating to expenses displayed on the screen noted:

- Expenses increased by $14 million from $176 million to $ 190 million.
- Depreciation expenses increased by $6 million due to the significant investments in recent years.
- Members contributions to the gate increased by $3 million due to more members attending events.
- Event expenses increased by $2 million, including contracted payments to AFL Clubs.
- Administration expenses increased by $2 million due to starting work on the MCG Redevelopment Business Case.

The third chart tracked the cash flow from the start to the end of the financial year:

- Cash at the start of the financial year was $80 million and decreased to $47 million at the end of the financial year.
- Receipts from members and customers for the year were $235 million.
- Payments to suppliers and employees were $139 million.
- The Club invested $30 million into capital improvements such as the Shane Warne stand seating replacement, IT infrastructure, and hospitality venue improvements.
- $106 million was invested into a portfolio of assets of domestic and international equities managed by UBS for a long-term investment return to position the club for future infrastructure requirements.

The Treasurer concluded that the Club was in a strong financial position and called for questions relating to the Report.

Questions:

Mr. Graeme Macmillan (Member No 24015) congratulated the Treasurer on a wonderful result and asked where the Shane Warne collection items are recorded in the Club accounts.

*The Treasurer advised that Shane Warne memorabilia asset is listed in the MCC Foundation accounts. The value (purchase price) is not recorded to respect the privacy of the Warne family. An explanation about why the Foundation and Club accounts are not consolidated is published on page 5 of the answers to questions.*

Mr. Jason Romney (Member No 6014) thanked the Treasurer for the report and asked to what extent the meeting of the MCC's financial goals depends on the use of Yarra Park, which is a topic that has raised some concern in the community.

*The Treasurer advised that having beautiful parklands is important to the character of the MCG, so while the MCC makes a loss on Yarra Park, the Club continues to invest in the Park as it makes an important contribution to the MCG as a whole.*

*Further to the above, the CEO noted that car parking on the grass has been reduced significantly over the years down to about 2000 cars and parking is not permitted when the ground is too wet.*

The Treasurer handed back to the Chair.

## 5. ELECTION OF OFFICE BEARERS & COMMITTEE MEMBERS

### 5.1 Committee

The Chair announced that there were three vacancies due to retiring committee members who are eligible for re-election. Management received one additional nomination, and full eligible members were asked to vote, via CorpVote in the lead up to this meeting. A total of 9,279 eligible members voted with each able to cast three votes.

The Chair showed on the screen the breakdown of the candidates votes:

- Adrian Anderson 7,702
- James Cain 7,707
- Anita Donnelly 5,649
- Anthony (Tony) Johnson 6,779

Accordingly, the following three members were elected to committee positions -

- Adrian Anderson
- James Cain
- Anthony (Tony) Johnson

The Chair congratulated the candidates on their re-election and thanked Ms. Anita Donnelly for offering to serve the Club. The Chair noted that there were no changes to the office bearer positions on the committee.

## 6. GENERAL BUSINESS

### 6.1 Reappointment of auditors

The Chair confirmed that KPMG has been reappointed as Club auditors for the next 12 months.

### 6.2 Questions

The Chair reminded members that the club has trialled a new initiative for the AGM this year, namely inviting members to submit questions prior to the meeting. Nearly 200 questions were received, and responses have been published on the MCC website and printed for members attending the meeting in person. Further questions will now be

taken; however, the Club may refer to the published answers where questions have already been addressed.

He further advised that the Committee and management would endeavour to take as many questions as possible during this time. He instructed members in the room to line up behind the microphones set up in the aisles to ask questions. He noted that members were invited to ask questions, rather than make statements and that they could ask one question at a time. He invited members online to begin to submit their questions, with members both in the room and online instructed that they must give their full name and member number when asking/submitting questions. He further advised that if multiple questions on the same topic are submitted online, they will be grouped together for ease of answering. If a question is asked that has already been answered it won't be answered again. In some instances, management will respond in writing after the meeting.

The Chair then turned the meeting over to members for questions.

Mrs. Jane Nathan (Member No 13562) asked whether match-day staff could wear uniforms in the MCC colours (red, white and blue).

*The Chair handed over to Mr. Josh Eltringham to provide a response.*

*Mr. Eltringham advised that as attendants work across the whole ground, it may not be appropriate for them to wear Club colours. These colours are included in some uniforms worn on level two in the Reserve. Around the ground, staff wear different colours to make them easily identifiable for fellow staff and patrons and to differentiate between various roles such as supervisor, customer service champion etc.*

Mr. Scott Sargeant (Member No 57658) asked what the MCC is doing to prevent another lock out as was seen in the Hawthorn v Geelong final in 2025 and whether Members who had purchased tickets but were locked out were able to obtain refunds.

*The Chair handed over to the CEO to provide a response.*

*The CEO advised that this was only the second time the gates had been locked in the last 1000 games. The MCC can't guarantee gates will not be locked as this would require moving to fully ticketed games and 75% of members want to retain the option of walk-up attendance. Members were advised ahead of the game in question to come to the venue early because the MCC anticipated reaching capacity. All members with a pre-purchased ticket were admitted to the ground, so there were no refunds required.*

Mr. Adrian Maher (Member No 171327) stated that the Long Room is a core institution of the Club and observed that since COVID, it appears that the atmosphere of the Room has been changed from a collegiate club atmosphere to more of a corporate fine dining experience. He asked whether prices could return to pre-Covid levels for a carvery and whether the room could once again be open for members to line up for breakfast on Boxing Day.

*The Chair advised that the Long Room, Pavillion, and Hugh Trumble venues are all walk up dining venues and handed over to Mr. Dean Matthews to provide further information.*

*Mr. Matthews noted that there have been similar requests to open the Long Room for breakfast on Boxing Day, which stopped during COVID, so this will be investigated. Feedback about food in the room varies, with many members stating that they like the higher standard of food that is offered on match-days. He stated that member feedback is always welcome and will be noted.*

Ms. Margaret Herdman (Member No 74990) asked if alcohol purchased in the Members Dining Room can be carried into the John Landy Room.

*The Chair handed over to Mr. Matthews to provide a response.*

*Mr. Matthews advised that alcohol purchased in the Members Dining Room can be carried into the John Landy Room.*

Mr. James Guest (Member No 4189) asked why elm trees in Yarra Park that were removed due to allegedly being diseased were then spread as mulch onto other trees in the park. He further asked whether the Club would hand back management of the park to elected officials.

*The Chair noted that the updated Yarra Park Master Plan includes a number of enhancements to the Park and handed over to Mr. Peter Wearne to provide more information.*

*Mr. Wearne advised that the MCC has engaged in lot of consultation regarding the Yarra Park Master Plan and has responsibility to ensure the safety of all visitors to Yarra Park. Trees are only cut down based on advice received in independent reports.*

Mr. Terence Martin (Member No 24819) asked whether the Committee will consider keeping 26/27 membership subscriptions at the same prices as 25/26 given the cost-of-living pressures being faced by members.

*The Chair noted that while the club's expenses are increasing by more than the rate of inflation, the club is only increasing fees at the rate of inflation, to benefit members. This contrasts with other similar clubs who have increased fees by more than this amount. The MCC has an agreement with the Victorian Government to increase fees by CPI or a maximum of 10%.*

Mr. Graeme Macmillan (Member No 24015) asked if the MCC can publish the full financial statements (rather than the concise financial statements) and the accounts of the MCC Foundation that are prepared by the club.

*The Chair advised that the Foundation's accounts are published to ASIC and handed over to Mr. Mark Jones to provide a further response.*

*Mr. Jones advised that the full financial statements of the MCC are available to members who login to the club's website and offered to assist with accessing these if there were any issues.*

Mr. Kieran Magee (Member No 173196) stated that using the Ticketek app is a frustrating experience especially for high demand events and asked whether there are any plans for Ticketek to improve their application and make ordering tickets for high demand events a more reliable and robust experience.

*The Chair handed over to Mr. Josh Eltringham to provide a response.*

*Mr. Eltringham advised that the MCC works closely with Ticketek to improve the user experience as much as possible. The MCC has some of the higher demand events in the country, so there are supply and demand challenges. Some changes have been made to assist with this process, such as allowing users to see their position in the queue. Positions in the queue are now randomised so that it doesn't matter how early patrons log on. While it can be frustrating, most people can get the tickets they want.*

Amanda McNeil (Member No 222935) commended Dean Matthews and his team for their work and support of members with disabilities and asked:

- Can strobe lighting be avoided as it impacts people with epilepsy and mental health issues.
- Can seating ballots be improved so that people with disabilities are offered seats that meet their particular needs.
- Can accommodations be made for people with disabilities to be able to sit down while lining up for tickets.

*The Chair handed over to Mr. Matthews and Mr. Wearne to provide further information.*

*Mr. Matthews noted the accessibility process in ballots can be improved and welcomed member suggestions. He added that the seating outside Gate 2B for patrons with accessibility requirements works perfectly for 90% of games. He noted that there are challenges with bigger games, but further seating can be provided.*

*Mr. Wearne advised that lighting during events is at the discretion of the event hirers, e.g., the AFL and Cricket Australia. Warnings are provided when there is extensive use of strobe lighting and the MCC can discuss the frequency and types of strobe lighting with its partners.*

Mr. Greg Marriner (Member No 106732) asked if trees removed in Yarra Park are replaced.

*The Chair handed over to Mr. Wearne to provide more information.*

*Mr. Wearne advised that trees are replaced when removed and removal is only for safety reasons.*

Mr. Thomas Hickie (Member No 58641) asked why non-MCC members are permitted to purchase MCC logo merchandise from the MCC shop.

*The Chair handed over to Mr. Matthews to provide further information.*

*Mr. Matthews noted that while some other Clubs restrict the sale of its merchandise to members only, the MCC has its own traditions, which allow people to purchase club logo merchandise for children and grandchildren and help to increase the distribution of the MCC logo and brand around the community.*

Mr. David Berry (Member No 113346) noted his pride in the current position of the club, the recent memorial events and its reach in attracting overseas clubs to play at the MCG. He enquired as to whether the Committee is proud of the Club's current position.

*The Chair advised that he couldn't be prouder of how well the Club is doing and its community and social impact.*

Mrs. Melissa Evanson (Member No 137909) asked if the Club would consider offering discounts for families with multiple children aged 16-17 years to become Provisional members before becoming adult members at 18?

*The Chair handed over to Mr. Matthews to provide further information.*

*Mr. Matthews answered that much work is occurring regarding affordability of membership. There is already junior pricing for under 18s and intermediate pricing for under 25s. Including country and interstate memberships, about 53% of MCC members enjoy some kind of discounted membership. During COVID, the club made provision for members to pay fees in three instalments, and we are aiming to introduce up to 12 monthly payments from next year. The MCC will continue to work to make membership as affordable as possible.*

Mr. John Kavanagh (Member No 84572) asked if there are any plans for a permanent memorial to Neale Daniher to be established within the grounds of the MCG or Yarra Park.

*The Chair noted that Neale Daniher was a special man, a national treasure and a personal friend of his. Current Club policy is that statues are reserved for people who have performed to exceptional standard at the MCG. In light of this, as good as Daniher's playing and coaching career was, there are others who better fit the criteria and would therefore be ahead of him in warranting the erection of a statue in their honour.*

*For this reason, Daniher's Way has established as a permanent tribute to him.*

There being no further questions, the Chair thanked everyone for their attendance, questions and interest in the Club.

He declared the meeting closed at 8:32 PM.
